THE NEW NEW TESTAMENT.

How the Work of Careful Revision Has Been Accomplished.

Dr. Angus, in the Sunday Magazine. During the last ten years a work has been in progress among us which has an interest for all English-speaking people—the revision of the English New Testament. It began with resolutions of the Convocation of Canterbury at a session held on May 5, 1870. They were to the effect that it was desirable that a revision of the authorized version of Holy Scripture should be undertaken; that no changes should be made but such as faithfulness required; that the style of the language of the existing version should be closely followed, and that the co-operation of scholars of other nations and other religious bodies should be invited.

A committee of eight bishops and eight presbyters was appointed to carry out these resolutions, of whom three bishops (Winchester, Gloucester and Bristol, and Salisbury), together with the Prolocutor of the Lower House, now Dean of Litchfield, the Dean of Canterbury, (Dr. Alford), the Dean of Westminster, and Canon Blakesley (now Dean of Lincoln) formed the original New Testament Company. At the first meeting of the united committee twenty-six scholars were elected members of the New Testament Company. The same year companies were formed in America to co-operate with the English companies—the New Testament Company consisting of fifteen eminent American scholars. Both the English and the American Company contain members of the larger religious bodies in the two countries respectively. About half of the added members of the English companies were members of the English Church. In the American companies the various religious bodies are pretty equally represented.

The mode of working between the two companies is interesting. The English Company first revised the Greek text and the translation, examining together every verse and every word. This was done at the rate of about forty verses a day, and it took six years to complete the first revision. As each portion was completed copies were sent to the American Company, who in due course sent back their criticisms and suggestions. These were carefully considered during the second revision, which occupied two years and a half. As the various portions of the second revision were completed, they were sent to America, and the Americans sent back further criticisms and suggestions, which were in turn carefully considered. At last the revised version was sent over to America in its final form, and the American brethren sent back in return a list of passages in which they record their preference for other renderings than those adopted by the English Company. These, it is understood, will be found at the end of the large edition of the revised New Testament to be issued by the University Presses.

The meetings of the English Company began each day at 11 o'clock and closed at 4. After prayer, the minutes of the previous meeting were read and confirmed. A verse was then read from the authorized version. Any proposals for changes in the Greek text were made, discussed and voted upon; and then any changes in the renderings of the English translation. At the first revision a majority of the members present decided all changes. At the second revision all these changes were liable to be reconsidered, and then no disputed change, either in the Greek text or in the revised translation, was affirmed unless a majority of two-thirds of the members present approved it. This rule was laid down at the outset, and gave a great preponderance, not unreasonable, to the authorized version. At the same time it was likely to end in the retention of readings and renderings which a decided majority of the company deemed the less satisfactory. It is obvious to remark also that under such a rule many a rendering was likely to be retained, not because the authorized version is the best possible, but because it was not found practicable to hit upon expressions which were deemed by two-thirds of the company to be preferable to the authorized. Sometimes, too, as it may be supposed, the rhythm and sacred associations of the authorized version would be likely to carry the day against renderings that had possibly greater technical accuracy on their side. Most readers will rejoice in the conservative influence of these rules, and they have certainly ended in the most careful examination of every work in the New Testament, whether in the English or in the Greek.

The New Testament Company has met ten times a year during the last ten years, for seven days each time, and generally for seven hours each day. It may be said, therefore, that they have given 400 working days to these conferences, in addition to much individual previous preparation. And as this work has been done without fee or reward, by busy men, they deserve on that account alone the hearty thanks of all the churches.

A FEW WORDS TO PARENTS.

The recent disturbance in Chinatown will have accomplished a great deal of good, in one direction at least, if it has drawn the attention of parents to the risk their boys are under of contracting the opium habit. It is said that a number of boys in town are addicted to the frightful practice of opium-smoking, contracted in Chinatown, and there still indulged by them, unless the raid on their dens has frightened the Chinamen into denying admission to white boys. But the only true preventive measures must be taken at home. The duty of warning boys against the pernicious secret vices into which they are so apt to fall is but too often neglected. It is astonishing that parents will lavish money and bestow the utmost pains and attention upon the mental training of their children, and yet leave them unwarned and uninstructed against forms of depravity which are fearfully prevalent among the young of both sexes. It is the great defect of the prevailing system of education that it pays attention to the intellect alone, and leaves the passions to grow and develop as they will. And yet the happiness of every human being is far more dependent upon the proper government and control of the passions than upon mere mental culture. Many a youth goes to wreck upon the rocks of sensuality whom a little judicious instruction in boyhood would have saved. Most parents seem contented to have their sons learn wisdom of virtue through the painful punishments of vice. The system of bringing up children without instruction upon subjects which though delicate are of vital moment to their health and happiness in after life, is a system which is accountable for much of the sin and misery in the world. Children do not grow up in ignorance of these things, though the instruction does not come from their parents. It is then a choice with the latter whether their children shall rob the moral orchard for coveted fruits of the tree of knowledge, or whether they shall be plucked for them by the paternal hand. Teach your children some knowledge of the subjects usually tabooed, and you will never regret it.

OUR DEMOCRATIC CONTEMPORARY'S ERRORS.

The *Journal* has evidently had enough of the discussion over the Chinatown raid, but remains too obstinate to retract and apologize for its reckless statements in regard to the affair. We have proved that the men who visited the Chinese quarter on Sunday night did no damage to anything there and no harm to anybody, in their attempt to break up the practice of selling opium to white boys. There may be a question as to the propriety of such unofficial raids, but for the abuse which the *Journal* has heaped upon a party of well-meaning and respectable men there can be no justification. Public sentiment in this community is entirely against the *Journal's* course in the matter, which has practically given encouragement to the Chinese to sell all the opium they can to the boys about town, and to shoot all the white men, not officers, who attempt to interfere.

A large number of newspaper men will be in Carson on the last Sunday in February. Mr. Niles invites them to meet in his office to talk over matters of interest. Cassidy of the *Sentinel*, Hobart of the *Leader*, Powning of the *Journal* and Sproule of the *Messenger*, are already there. Piotta, of the *Lyon County Times*, McCarthy of the *Chronicle*, Cohen of the *Enterprise* and Doten of the *News* can easily be there or send a "hand." The *Gazette* will be represented and we understand that Kelly of the *Silver State* and Dornier of the *True Pioneer*, will visit the capital about that time. These, with Niles, Davis, Parkinson and Robinson will make a respectable starter. The meeting will be held Friday Feb. 27 at noon. Is it so understood?

EDITORIAL NOTES.

By way of reply to the communication published in yesterday's *Gazette* from "A Respectable Citizen," challenging the editor of the *Journal* to make good his assertions over his own signature, with the assurance that "Respectable Citizen" would then reveal his identity—in reply to this, the *Journal* of this morning, in a particularly ungentlemanly manner, attributes the authorship of the communication to one of the *Gazette's* staff. The *Journal's* statement is entirely false. The communication was written, as we stated, by one of the best-known and most reputable merchants of Reno, whose challenge to an open discussion the acting editor of the *Journal* is evidently afraid to accept. The *Journal's* personal attack on the present writer is as malicious and cowardly as it is false and mean, and serves only to exhibit the utter absence of journalistic decency and propriety for which that sheet is remarkable.

The *Gazette* holds itself in no wise responsible for the opinions of its correspondents, and in giving insertion to a communication, desires it to be borne in mind that it does not necessarily endorse the sentiments or statements therein contained. The letter from Mr. Gabby, of Bidwell, was published in justice to him, he having been assailed through our columns by Mr. Chamberlain. We regard Mr. Chamberlain as an efficient officer. He gave evidence of his courage and capability in the capture of Barney Fitzgerald and another prisoner who escaped together from the jail last year.

The total population of Arizona, as shown by the late census, is 40,441, including 1,630 Chinese, 2 Japanese, and 3,493 Indians and half-breeds. The males number 28,902, and the females 12,389—a remarkable disproportion between the sexes which the *Gazette* has frequently pointed out, and which appears to indicate a fine field for the immigration of unmarried ladies who are inclined to matrimony. The population of the Territory is further subdivided as follows: Native, 24,419; foreign, 16,022; white, 35,178; colored, 5,263.

The Board of County Commissioners rejected the bill of Sanders & Neale for burying the Indian woman who was killed by the cars last month. The charge was ten dollars for digging the grave, providing a coffin and getting up in the night to take care of the body. Cheap enough, surely. Upon what grounds the bill was rejected we cannot understand. Does the Board intend to let dead Indians lie in the streets unburied?

"The *Reno Gazette* occupies two of its columns on Monday showing up the innermost recesses of the insane business. Printer's ink has made fortunes, but it has never been found able to compete with coin in a race for dear life."—*Times-Review*.

The question is not whether Reno's citizens are law-abiding men or not, but whether the boys growing up about the city are subject to constant temptation to become opium smokers. The *Gazette* says no; the *Journal* tries to say yes, but is afraid.

The Carson Tribune is looking a long way ahead in saying: "J. C. Hagerman, a prominent merchant of Reno, and prospective candidate for Governor on the Democratic ticket two years hence, is in Carson to-day."

The revised edition of the new testament is expected to appear in the course of a month. An interesting article in regard to it will be found on our first page.

A Benefit Deal.

From the S. F. Post.
We informed our readers some time ago that efforts would be made to resurrect Alta. We understand the movement will be in behalf of several individuals who were badly "climaxed" during the late deal, and whose friendship it is all important for the principal insiders to possess. The idea probably is to unload upon another crop of gudgeons. There have been no fresh rumors about the mine as yet, but they will doubtless circulate as the contemplated deal takes shape.

At Chalk Ranch near Leadville, a miner named Gavin was recently, while in his cabin, buried under a snow-slide. The fire was out, and soon he was in darkness. At Freestone, Sonoma county, last week, Frank Lemos, a Portuguese, became insane and jumped into a well 28 feet deep, but was rescued by one of his neighbors. A struggle with the insane man took place in the well, and afterwards Lemos became so violent that they were obliged to tie him securely. He has been taken to San Leandro, Alameda county.

At Santa Fe, New Mexico, the other day, a new railroad company known as the Jemez Valley Hot Springs Railroad Company, was organized. This is the first company of the kind ever organized by citizens of the Territory. The road will run from Bernalillo to the famous Jemez Hot Springs, a distance of about 30 miles.

The principal losses of cattle in Wyoming, Colorado and Nebraska, have been on the Laramie Plains and along the line of the railroad towards the east and the south, and the severest have been on the ranges between the North and South Platte rivers, east of Julesburg. In the sections mentioned 10 to 15 per cent of the cattle have died, and in some Colorado herds the loss has gone as high as 50 per cent.

Spiegelberg, New Mexico, is attracting attention for its mines. Immense forests, now being invaded by saw mills, cover the mountain slopes. Cedar, pine, white and yellow pine, oak, aspen and other trees, large and high, supply a grand abundance of fuel and timber. Salt by the hundred of thousands of tons is obtainable from the series of salt lakes of the district. Large beds of native sulphur are also found.

No Assessable Stock.

From the Bodie Free Press.
Editors Free Press:—Under the laws of this State does the legend, "Forever unassessable," across the face of certificates of mining stock absolutely exempt that stock from assessment? PROSPECTOR.

No. The best evidence that it does not, is that a corporation owning and working a mine in Bodie, and having its stock printed "unassessable," recently levied an assessment, and will sell and cancel from its books every share of stock upon which such assessment shall not have been paid on the day advertised for the sale of delinquent stock. There is no law in this State requiring, compelling or authorizing any corporation to issue unassessable stock. There is such a law in New York, but the highest judicial authority of that State has held that in certain cases—as where the action of the majority is authorized by the original articles of incorporation, or where there is full knowledge of the transaction on the part of all concerned there is such tacit acquiescence and delay in objecting as to amount to laches and estoppel—the corporation may legally reorganize or arrange its stock on a different basis of valuation, levy assessments, etc., without the assent of each stockholder—and the majority generally find some way to avail themselves of these privileges.

The Terrapin Senator.

From the Atlanta Constitution.

I have just heard of an instance where a United States Senator is supported by terrapins. Senator Dennis of Maryland, as my information goes, has about twelve acres of land put down in a pond that is fed by salt water. This pond makes the largest terrapin farm, probably in the world, and is the source of a heavy income. In it terrapins are raised for the market, and it is said that over 13,000 "counts" have been sold from it in one year. It may be noted, for the benefit of the uninitiated, that a "count" is a terrapin over seven inches in length, and that "counts" are sold by number, bringing from \$10 to \$14 a dozen, or about \$1 each. In market they retail for about \$20 a dozen, and in the fashionable restaurants are served at \$1 50 a plate, one terrapin filling about three plates. There are several terrapin ponds in Maryland, and they grow in importance as "terrapin stew, Maryland style," is becoming more and more popular among high lives.

The Trot To-morrow.

Should the day be fine, the trot at the track to-morrow will draw a good many spectators. The conditions are that each owner put up \$25, pay or play; mile and repeat, to rule; good day and track. Smith Hill enters Billy Lee; Thos. H. De Vall enters Willy Graham; L. W. Lee enters Bald Hornet; Wm. Robinson enters Bradley's Black Charley. Charley is the favorite, the betting on him being reported as five to one. The horses have no record. The first horse taking two heats wins the race. Admission to the grounds can be obtained only through the main entrance by the grand stand, and will be two bits, ladies and horses free. The start will be made about two o'clock. Pools will be sold at the Palace hotel this evening and at the track to-morrow.

Cars Smashed in a Tunnel.

The Enterprise says: Last evening freight train No. 18, coming up from Carson, had some trouble in the Yellow Jacket tunnel. The cars of the train (a double-header) were loaded with wood and lumber. While passing through the tunnel a stake broke allowing some of the lumber to fall over and catch against the side timbers of the tunnel. One car was demolished and another was considerably damaged. The accident delayed the 5 o'clock passenger train about an hour and twenty minutes. Luckily no one was hurt.

Mining Stocks.

Alta continues to be in the most active demand of any stock on the list, opening at 2 30 this morning and closing at 2 65, with sales of 1,335 shares. Closing quotations of other stocks this morning were: Ophir 5, Mexican 5 1/2, Gould & Curry 3 1/2, Savage 2 05, Hale & Norcross 3 35, Imperial 13, Belcher 95, Sierra Nevada 6 1/2, Bullion 1 05, Justice 70, Union 8, Silver Hill 40, Benton 75.

Yield of the Big Bonanza.

Says the Gold Hill News: The Con. Virginia mine has produced \$64,970,777 95 in bullion, and paid \$42,990,000 in dividends, and the California mine has produced \$46,736,831 44 in bullion, and paid \$31,320,000 in dividends, making a combined product of \$111,707,608 and \$74,350,000 in dividends.

Obituary Court.

A. J. Smith et al. vs. B. F. Leete—Application for mandamus denied. Proceedings dismissed.

Vesky vs. Matney—Judgment for plaintiff by stipulation, \$300.

Coleman vs. Meyerstein—Defendant allowed five days additional time to answer.

Cattle Shipments.

L. W. Lee shipped four car-loads (78 head) of cattle to San Francisco for Moffat Bros., last night. It is reported that Moffat Bros. have bought 200 more cattle from Derby.

JOTTINGS.

Justice Young is better.

—The Chautauque Circle will meet at Mrs. D. B. Boyd's to-night.

—H. J. Thyes and wife have been serenaded since their arrival home.

—The Syndicate has levied an assessment of twenty-five cents, delinquent March 23.

—There will be no cock-fighting at the Palace to-morrow night. There is a law prohibiting the sport.

—Constable Avery has appointed John Hoy a special deputy to enforce order in and about Reform Club hall.

—Joe's window is tempting to an epicure. Among other attractions, he displays a variety of fresh and salt water fish.

—Googel, the well-known watchmaker, advertises that he is not selling at cost, and yet his prices are as low as any of his competitors.

—Mrs. Kate Savage's wagon broke down yesterday under a load of seven or eight women and children, and was hauled to McFarlin's shop for repairs.

—Rails are going through for the Galena and Lewis narrow gauge railroad, a tributary of the Nevada Central, with which it connects about eleven miles from Battle Mountain.

—The Amateur Quadrille Band's party in the theater last evening was well attended, and all enjoyed a few hours' dance. The music was excellent. It is hoped that the band will give another party soon.

—Some smart-Aleck last night stuck up a mock "601" notice on a telegraph pole at the junction of Virginia street and Commercial Row. It had the names of a number of well-known and respectable men appended. The notice was taken down at an early hour this morning.

—Charley Pollard left his team standing in front of Yankee Dodge's last evening with a little boy holding the lines. Something started the horses and they turned the corner into Second street at a lively pace, the little fellow yelling for dear life. Charlie after a brilliant go-as-you-please race, jumped into the back end of the wagon and brought the runaway to an end opposite Lincoln avenue.

The Cherry Creek Affair.

"At Cherry Creek, about 5 o'clock on Sunday morning, a party of four or five drunken men visited Chinatown, and while engaged in some unlawful acts two of them, Jerry Sullivan and Danny Mann, both from Eureka, were shot by a Chinaman. Sullivan dropped dead in a moment, and Mann carries his arm in a sling, with an ugly wound. The Chinaman was arrested. Opium smoking was at the bottom of the affair."

The Journal published the above item this morning under the caption of "Reno-Cherry Creek." It is evidently a great satisfaction to the Chinese organ that one of the white men was killed. The Chinamen were only acting in accordance with the Journal's advice to "kill as many of them as possible."

Dead in an Opium Den.

The Silver State learns that a woman, known as the "Snake Charmer," who resided in Winnemucca a year ago, was found dead in an opium den at Ogden a few days since. It is said that her real name was Lizzie Wunders, and she hailed from Reading, Pa., where her family still reside, and are among the most respectable people of the place.

Luck in a Lottery.

Says the Carson Appeal: "On Tuesday evening's train was a Mrs. Riondon, of Virginia, bound for Havana, Cuba, to collect a \$25,000 prize which she won in the January drawing of the Havana lottery. A San Francisco banking house offered to discount the prize at 10 per cent; but the lady concluded that she could save nearly \$2,000 by making the trip."

BY TELEGRAPH.

Attempted Impeachment of a Superior Judge.

SACRAMENTO, February 17. The special committee to investigate the charges brought against F. L. Hatch, Superior Judge of Colusa county, met this evening and listened to statements by disaffected attorneys who have instigated the impeachment proceedings. The committee, after a great deal of talk, agreed to appoint a sub-committee of three to proceed to Colusa and take testimony, there being some sixty witnesses whom it is desirable to examine. This sub-committee will leave here on Saturday, taking along a sergeant-at-arms and a short hand reporter, returning on Tuesday. Affidavits were presented to the committee, but were not deemed sufficient on which to predicate impeachment proceedings.

Senator Conkling's Stay at Mentor.

CLEVELAND, February 17. Senator Conkling arrived at Mentor yesterday afternoon, and was warmly received at Garfield's house, and had several hours' confidential talk. Conkling took the midnight train east.

Garfield's Wakefulness.

NEW YORK, February 17. J. Hyatt Smith, M. C., of Brooklyn, says Garfield told him in a recent interview he had trouble in getting his sleep of nights. His friends advise him to shut down on everybody and take a rest until after his inauguration.

The Inauguration.

WASHINGTON, Feb. 17. General Sherman, Grand Marshal of the inaugural ceremonies, has issued a circular detailing the programme to be observed by the military escort of the President-elect. General Hancock will be here at the inauguration.

Fasting and Prayer—Reported Death From Starvation.

SAN FRANCISCO, Feb. 17. In accordance with a recommendation of the Ministerial Union that today be observed as a day of fasting and prayer, the various Protestant churches in this city and Oakland belonging to the Union had appropriate exercises this evening, large crowds attending.

This afternoon a woman was found dead in a house near the corner of Pacific and Front streets. It is reported that she died from starvation.

Negotiations With the Boers.

LONDON, Feb. 17. It is understood that it is proposed that part of the Transvaal to which the Boers have a fair claim be declared independent, and the remaining and larger part continue to be governed by the British Administration, and that a British resident be appointed at the capital of the Boers. The President of the Orange Free State telegraphs that he has taken stringent precautions to preserve the neutrality of the State.

Judge Forbes' Curious Will.

NORTHAMPTON, Mass., Feb. 17. Judge Charles E. Forbes, just dead, in his will, after leaving a half-brother and sister each \$1,000 in annuities, gives in trust to the town of Northampton \$250,000, and as much as the State wants for a public library; \$50,000 for building, and an income of \$50,000 for books. No minister of religion is to have anything to do with the management of the institution. In case of failure to accept the conditions, the \$250,000 goes to Harvard College to establish a professorship of advanced scientific research.

International Bi-Metallic Conference.

WASHINGTON, Feb. 17. The Speaker laid before the House to-day a message from the President, transmitting the report of the Secretary of State in relation to a resolution addressed him by the House on the 31st of January on the subject of international action for the restoration of silver to full use as money. The President states that the prospect of an international conference on that subject, promising valuable results to the interests of this country, is such that he recommends to the immediate attention of Congress the propriety of an appropriation providing for the proper representation of this Government at such conference. The message was referred.

Divorced.

Judge King has granted S. C. Hall a divorce from Mary Hall, on the ground of desertion.

Best Cattle Coming.

The Silver State says "Several large bands of cattle are on the way, here from the north, principally from Paradise Valley and little Humboldt. Seventy-three cars have been ordered to take them to California."

Oh, What a Cough!

Which Shall It Be.

The School Trustees of District No. 10 have only sufficient money to run the schools until March 1. The reasons are, 1st. They have been forced to employ three more teachers than ever before. 2nd. It takes more fuel to heat the new school house. 3rd. The janitor's fees are larger. They want to know whether they shall levy a tax or close the schools. An election will be held on February 23d to vote on the proposition.

NOTICE.

Notice is hereby given to the qualified voters of Reno School District No. 10 that there will be an election held, Wednesday February 23, 1891, at the old school house, between the hours of 10 a. m. and 4 p. m. Said election is called to submit to the qualified voters of said District the question whether a tax shall be raised for the purpose of continuing the months longer, there being no more money in the fund belonging to said District than will run the schools during the month of February. The amount proposed to be raised is \$4,300, including the expenses of an election, etc.

By order of the Board of Trustees of said Dist. No. 10. J. L. McFARLIN, D. D. BOWEN.

The Fame of Whose Wonderful Beauty Has Traveled Around the World.

From the London World.

Here is a lady who has been not merely the passing figure of a season, but who has held her own amid the fiercest competition of London life, and who, at the end of her third campaign, had not appreciably lost ground. During the whole of this time she had been lionized, worshipped, stared at in public places, mobbed at railway stations to an extent seldom experienced save by royalty. She had not only become an equal but reigned as a sovereign in certain sections of that "society" which, if it is a little mixed, is the most highly coveted in England. Her face had become as familiar to the inhabitants of this country as that of the Prime Minister, and her name was far more widely known than that of Archibald Campbell Tait. All this was not her doing, but society's. Society it is which insisted in placing her on its throne, and in having hats and mantles and other articles of apparel called after her name. Such an ordeal might have transfigured St. Agnes herself.

Yet, in this case, the victim of it underwent no visible change. Royal Academicians protested that a head or face more perfect was never possessed by woman. Poets of the period dithyrambically declared that Helen of Troy had again come to earth. Princes and peers literally prostrated themselves. Society's verdict was so strong in her favor that it even silenced the dissenting voice of feminine malignity. But the lady to whom society had suggested the calling of professional beauty was not greatly moved by any of these things. Elate with her honors she may have been, but she bore them with none of the insolence which in woman success usually develops. All this society would do well to remember to her credit now.

A Boy That Was Not a Boy.

From the Grass Valley Union.

A funny incident recently occurred in Grass Valley respecting a birth in the family of a well-known citizen. A physician had been called in anticipation of the event, but the child had been born before his arrival. The nurse told him that the child was a boy; she had also informed the father to the same effect, and he went off to his business the happiest man in town. The nurse dressed the child in the prettiest garments of babyhood, and for a time felt conscious of having a fine boy in her charge, but later in the day she discovered that she was entirely mistaken, and that the child was a girl. The astonishment of the father, when he came home in the evening, and was told that the child was not a boy, but a pretty little girl, can be imagined, not described.

The Telephone on Railroads.

According to *Engineering*, the Edison loud-speaking telephone is giving way in England before the Gower-Bell telephone. This latter form is largely used in the Post Office, and is also employed to some extent in railway signaling. In a recent experiment on the South-Western Railroad, the telephones were simply connected between the existing wire for working the "block" system and the "earth." Conversation was then distinctly carried on, without interfering in the least with ordinary signals; and it was curious to listen in the telephone, and hear the sound of the train itself leaving the distant station simultaneously with the strokes of the signal bell indicating its departure.

Charles Sumner, Mr. Z. L. White says, did not know what dyspepsia was. Speaking of his good fortune in this respect one evening, he said that one of the first requisites to success in political life was a good digestion, and he reminded his visitor that a majority of the Senators were portly men. While he admitted that slim, dyspeptic men sometimes attained high position, still he maintained that in order to do so they had to overcome greater obstacles than those who had good stomachs.

An Ohio Court has decided that married woman don't own the clothes they wear. This must be a gratifying decision to women who not only earn their own clothes, but also those worn by their husbands.

A Chicago girl who is tired of the frivolities of fashionable society wants to marry a poor young man who cares nothing for balls or parties and is willing to stay at home the rest of his life.

The late storm damaged Adin to the amount of \$2,000. It took out their bridge and removed several buildings from their underpinning.

Summons.

IN THE DISTRICT COURT OF THE Second Judicial District of Nevada, and for the County of Washoe. The State of Nevada, to Mary Jane Hall, Greeting: You are hereby required to appear in an action commenced against you as defendant by S. C. Hall, as plaintiff, in the District Court of the Second Judicial District, and for the County of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service) is served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to obtain a judgment and decree of divorce against the defendant and in favor of the plaintiff. The complaint alleges that the plaintiff and defendant intermarried as husband and wife, at Reno, Nevada, A. D. 1882, and lived and cohabited together until on or about the 25th day of August, A. D. 1882. That plaintiff was a true and faithful husband, that on the 25th day of August, A. D. 1882, at Reno, Nevada, defendant left plaintiff's bed and board and has ever since then absconded and refused to live with plaintiff, and has gone to the State of Massachusetts, deserting and refusing to cohabit with plaintiff, all of which will fully appear from the complaint which is on file in the office of the clerk of said court at Reno, in said county. And you are further notified to appear and answer said complaint, the said plaintiff will apply to the court for the relief demanded.

In testimony whereof, I, MARK PARISH, have hereunto set my hand and affixed the seal of said court, this 12th day of February, 1883.

THE BOSS!

Edison Outdone.

Over 150,000 Sold.

Patented April 2, 1878, June 11, 1878, and July 8, 1879.

Boss Coffee, Tea Pots & Urns.

It is the Boss! Why? Because it produces Boss Coffee.

It makes rich flavored Coffee! Why? Because it saves all the aroma and food are retained.

It beats them all! Why? Because it saves 100 per cent over boiled Coffee, which is not Coffee, but bitter water.

It saves 50 per cent over any other method of making Coffee. Third—Because it saves eggs and trouble of clarifying.

Fourth—Because it makes Coffee as clear as put wine. Fifth—Because it takes only two minutes to make Boss Coffee.

The Boss works as well on Tea, and saves 25 to 50 per cent.

While Edison may furnish light to millions, the BOSS will assuredly give health to all who use it.

Thousands have become dyspeptic and bilious from drinking boiled coffee or worse, (boiled coffee is not coffee, but bitter water) with coffee (sugar). Stop drinking boiled coffee. Make your coffee as nature intended, and restore your health.

Many inventors have racked their brains to furnish the human family with a practical method of making coffee. At last the happy result has been accomplished in the production of very cheap and simple Pots and Urns celebrated as the BOSS.

To Whom It May Concern:—After thoroughly testing the BOSS COFFEE POT, we, the undersigned, fully endorse the same as the best method of making Coffee we have ever seen.

Besides saving eggs, it will save a large per cent. of the Coffee. It produces Coffee as clear as wine, which is much stronger, and has a more delicious flavor than any coffee made by any other process.

Treat All Chronic and Special Diseases

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever aid at the altar of suffering humanity. DR. SPINNEY will cure the difficulty, \$30 for every case of Seminal Weakness or private disease of any kind or character, which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system. In such cases the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milky hue, again changing to a dark and turbid appearance. There are many men who do not think of the cause of their trouble, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 5 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice free.

P. S. For private diseases of short standing a full course of medicine sufficient for a cure, without the necessity of a long stay, is sent to any address on receipt of Ten Dollars.
